

IRT partners in dementia care project

IRT partners others in a dementia care project funded by the Department of Health and Ageing under the Encouraging Best Practice in Residential Aged Care (EBPRAC) grant scheme.

IRT is excited to be involved in the EN ABLE Project (Developing and Testing a Toolkit for the Implementation and Evaluation of Person-centred Evidence-based Responses to Need Driven Behaviours (NDB) Associated with Dementia). The EN ABLE Project is a collaborative project with researchers from UTS, La Trobe University and Queensland University of Technology and six residential aged/dementia care homes, both urban and a rural, from New South Wales, Queensland and Victoria .

For more information go to the [project overview](#).
