Journey of Care

IRT applies an innovative approach to residential aged care. Our Journey of Care is a new model of care that personalises the care experience for every resident. We recognise that every care journey is unique and honour the individual diversity of each resident. Our specialised model of care ensures residents age in the right place with the right care needs within our aged care centres.

The IRT Journey of Care incorporates two key elements, neighbourhoods and specialist programs.

Neighbourhoods cater for residents with similar care needs, allowing for staff specialisation, and tailored design of the physical environment and

equipment. They allow families to see their loved one ageing in the right place with the right care needs.

Our specialist programs support resident wellbeing at each stage of their care journey. By working in partnership with leading Australian researchers and health experts, we enrich residents' quality of life, when they need it most.

The Namaste Program is a specialty program offered at selected IRT care centres, including IRT Crown Gardens. It is a unique sensory-based care experience where residents are cared for by trained staff in a purpose-designed room using therapeutic touch, aromatherapy, music and sensory experiences.

Palliative Care

IRT Crown Gardens provides personalised palliative care with compassion, comfort and connection when it's needed most. Our specialised palliative care program is founded on extensive experience in end of life care, taking care of your loved one's physical needs and supporting their emotional wellbeing as they face a life limiting illness.

Specially trained staff provide clinical care and support family and friends who are invited to participate and spend quality time with their loved one. When a resident passes away, we offer a range of signature services to honour their memory, such as a guard of honour, memorial items and meaningful room signage.
